A hilarious comedy in which five Spanish women and the ghost of García Lorca try to trick an eccentric Englishman. When the eccentric Atticus Craftsman shows up in Madrid with a mission to close down a literary magazine that is only making losses, he doesn't imagine that dealing with the magazine's five members of staff is going to be too hard. Indeed, it would be difficult to find five nicer, more simple or mild women than Berta, Soleá, Yoli, Asunción and María... Or at least that's what it seems like, until the threat of redundancy turns them, much to their regret, into very different women.
