Have you ever dreamed of learning first-hand from one of the great traders? Alejandro de Luis gives a detailed explanation of how a trader acts and prepares himself psychologically in order to be able to survive in the world of finance.

Learn how to practice intelligent speculation and to stand out from other investors by learning how to act and think at all times.

With three simple steps – psychological preparation, essential skills, and five professional trading techniques – you will start to understand what is necessary in the world of investments.

Whether you're just starting off on the difficult path to trading or are already a trader, Trading Room could change how you see things.
