2017

**Season:** Year 2017

If you thought that Sara, our Sara, would achieve peace and serenity after getting back together with Aarón, you really don't know her at all... not her, nor p... karma. At the start of this novel Sara finds herself at the very start of her fairy tale: she has an exciting job, a passionate husband and a seemingly perfect child. But although she seems to hold the winning hand, is she happy? A rhetorical question if ever there was one: if she doesn't have reasons to torment herself, Sara will go and dig until she finds them, and boy will she find them.
