Deep, sometimes eccentric, highly sensitive, brilliant creative minds... This work showcases twenty cultural geniuses of the twentieth century who contributed to the creation of a new and transgressive vision of the society in which they lived. Picasso, Dali, Hugo Pratt, Frida Kahlo... The Llorente siblings paint a penetrating and exciting picture of each of these prodigies. And like a sort of beneficent Ouija board, it doesn't take long for us to hear the echo of their voices. This book introduces its readers to important individuals from various fields and unknown facts about them. Each illustration is accompanied by a short story, for the most part in the first person, about their lives.
