Clara, 35 years old, divorced and with two children, has a life as normal as any other woman, until one day something happens that changes her completely. When you start to read 'Los caracoles no saben que son caracoles' don't make any plans, because you won't be able to stop until you finish it. You will laugh and you will cry, sometimes at the same time. With this novel, Nuria Roca, who has already surprised everyone with 'Sexual-mente', establishes herself as a highly talented author who is here to stay.
