Spanish Retail price: 9.90€

ISBN: 978-84-8443-722-2

Genre: Others

AUTUMN

2011

Season: AUTUMN 2011

This material provides ways in to Flamenco from a variety of angles: musically (in terms of the features of each palo or style), historically and socially (through the unwritten history of the gypsy book) and artistically (through the past greats of flamenco). It includes a video documentary which takes in the different palos, emblematic locations, the principle figures of a flamenco scene, interviews with professional flamenco artists, etc.

The texts, written by journalists who specialize in writing accessibly, come with photographs and activities intended to reinforce and expand on the cultural and linguistic knowledge imparted in the texts. An inspiring theme looked at from a fresh, contemporary perspective, all in easily-understood Spanish, it comes with a Glossary on every page, plus various activities. The DVD assists the development of an audiovisual understanding of the subject.
