The CCNP certificate is a net certificate of worldwide pretige, backed by Cisco Systems. Any technician with this certificate comes with a professional guarantee for companies seeking qualified personnel to deal with concepts such as routers, commutation, private networks, remote access etc. Most CCNP certified staff provide high level support, resolving problems for big clients or configuring complex systems.

The Study Guide for the CCNP Certificate is the first on this important qualification to be publishd entirely in Spanish. The book provides the ideas, commands and graphics needed to configure Cisco networks for business. Publishing rights available from **Company:** RA-MA EDITORIAL Y PUBLICACIONES S.A
